

### REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the personal conference held with the Examiner.

The Examiner's highly beneficial cooperation during the conference has been gratefully acknowledged.

With the present Amendment applicants amended Claims 1 and 23, which are independent claims currently on file. The additional features of these claims have the support in the first two lines on page 3 of the specification.

Applicants also added Claims 24 and 25 which substantially correspond to Claims 1 and 23 and additionally define that the components of each individual magnet arrangement are not shared with another magnet arrangement.

It is believed that Claims 1, 23, 24 and 25 have been drafted in correspondence with the Examiner's recommendations to more clearly define the present invention and to distinguish it from the prior art.

It is also respectfully submitted that Claims 1, 23, 24 and 25 should also be considered as patentably distinguishing over the art and should also be allowed.

Reconsideration and allowance of the present application is most respectfully requested.

The application in its amended state is believed to be in condition for allowance. Action to this end is courteously solicited. Should the Examiner have any further comments or suggestions, the undersigned would very much welcome a telephone call (631-549-4700) in order to discuss appropriate claim language that will place the application into condition for allowance.

Respectfully submitted,

Michael J. Striker  
Attorney for Applicant  
Reg. No.: 27233  
103 East Neck Road  
Huntington, New York 11743
